

DIDN'T EXPECT TO BE WELL AGAIN

Suffered Twenty Years—Gains Twenty-nine Pounds After Taking Tanlac.

"I am now twenty-nine pounds heavier than I was when I began using Tanlac and I feel like a new woman in every way," said Mrs. Annie Miles, residing at 1445 Evergreen avenue, Jacksonville, Fla., a short time ago. "For twenty long years I suffered with stomach trouble and indigestion and tried everything I ever heard of for it; but kept getting worse all the time," she continued. "I just had to force myself to eat enough to keep me alive and what little I did eat made me suffer hours of agony, from gas that would rise on my stomach. I had awful headaches and dizzy spells constantly and was so nervous I could hardly sleep. I fell off in weight and got so weak and no-account that I felt I could never be well again."

"One of my neighbors told me what Tanlac had done for her and I started taking it. I began to pick up right away. I kept on gaining until I had increased in weight twenty-nine pounds and my strength has come back to me in full force. I can eat anything I want and everything tastes good. My nerves are all right again and I sleep like a child at night and get up in the morning feeling fine. Tanlac has made me strong and well again."

Tanlac is sold in Chattanooga exclusively by the Live & Let Live Drug Co.—(Adv.)

Lemons Beautify!

Strain lemon juice well before mixing and massage face, neck, arms, hands.

Here is told how to prepare an expensive lemon lotion which can be used to bring back to any skin the sweet freshness of which it has been robbed by trying atmospheric conditions. Windchill, roughness, tan and redness are washed off and those tell-tale lines of care or of age are softened away.

The juice of two fresh lemons strained into a bottle containing three ounces of orchid white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothening and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands and see for yourself.—(Adv.)

If It Is FROZEN And Buried

NEW DIVISIONS FOR AIR SERVICE

Atlanta Probably Headquarters for Southeast—Big Plans for Air.

Washington, March 1.—The general staff of the army has before it for approval a carefully prepared plan to decentralize the signal corps of the army, under which the United States will be divided into four departments corresponding to the six departments of the army. The eastern and north-eastern departments of the army will be combined and designated the eastern department of the signal corps, with headquarters at Governor's Island, N. Y.; the boundary of the southeastern department will parallel that of the southeastern department of the army, with headquarters probably at Atlanta; the southern department of the signal corps will be the same as for the army, with headquarters at San Antonio, while the central and western departments will be combined and designated the western department, with headquarters at Chicago.

The plan of decentralizing the signal corps has become necessary on account of the phenomenal growth during the past few months, owing to the expansion authorized by congress to train aviators for overseas duty. Numerous aviation fields have sprung up in the southeastern department, but the largest number are in the southern department. So enormous has become the business of the signal corps, especially the aviation section, that it has been found impracticable and almost impossible to handle the great volume of business with the single headquarters in Washington.

The decentralization plan was worked out by Brig.-Gen. A. L. Dade, Col. H. O. Williams and Col. W. L. Chitty, all of the aviation section. Col. Chitty has been in command of the aviation field at San Antonio and was called here to assist in the preparation of the plan.

It is expected that Gen. Dade will be placed in command of one department; that Col. Chitty and Williams will be advanced to the rank of brigadier-general and placed in charge of other divisions, while some other colonel in the signal corps will be advanced to the necessary rank and assigned to command the fourth department.

The general staff will approve the plan, it is stated, and official announcement is expected soon.

PLANNING TO BUILD INTERURBAN ROAD

(Special to The News.)

Huntsville, Ala., March 1.—Messrs. Davies, F. H. Frank and Waddell & Sons are in Huntsville looking over the line for the interurban road to be built from Florence to Huntsville. They are among the most noted bridge builders in the United States and Canada, and are finding the number of bridges required and the sites for these bridges.

Huntsville is up and doing on this project, for with the big dam No. 2 at Muscle Shoals, for which the government has appropriated the sum of \$16,000,000.

SURPLUS NATIONAL GUARD OFFICERS SHIFTED FROM SEVIER TO WADSWORTH

Where They Will Be Assigned to Skeletonized Regiments Recently Removed From Camp Green—Rumors of Resignations of Commissioned Officers.

(Special to The News.)

Greenville, S. C., March 1.—All available surplus national guard officers for Tennessee, North and South Carolina in the Thirtieth division at Camp Sevier are called in an order received from the war department yesterday to be transferred to Camp Wadsworth, near Spartanburg, S. C., for permanent assignment to skeletonized regiments recently moved there from Camp Greene, Charlotte.

A list of the surplus officers in the division will be compiled at once. Information obtained yesterday from an authoritative source forebodes any number of resignations of commissioned officers and the promotion of noncommissioned officers and enlisted men, which will be in progress in the next few days and will continue with a few each week.

It was learned that the vacancies created by the resignations of commissioned officers will be filled as far as practical by appointment of qualifying "noncoms" and enlisted men. Reports from division headquarters today showed that all but four men sent from Camp Sevier have "stuck" at the third officers' training camp at Leon Springs, Tex., and every indication obtainable was that the three hundred and twenty men of this division at the schools will receive commissions. They are expected back in about a month.

Hot weather found practically every organization engaged in intensive training today, the favorableness of the weather for the past week having aided largely in the accomplishment of much work in all lines.

With the advent of warmer weather the death rate is very much smaller, only two deaths having been reported in ten days. No deaths occurred yesterday.

Major Donald N. McConnell, U. S. A. engineer, who has been attached to the 105th engineers at Camp Sevier for some time as instructor, is to be transferred to Camp Palo Alto, Cal., where it is understood he probably will be made chief of staff.

granite column with the names of the victims carved thereon, and the site will be a knoll facing the Atlantic ocean on a huge elevation from which can be seen on a clear day three of the four points where the Americans are buried.

The first proposal to erect the monument came from residents of the island and a modest fund was started for this purpose even before the burials were completed.

MAYOR APOLOGIZES FOR ASSAULTING LEGISLATOR

Trenton, N. J., March 1.—Mayor Frederick W. Donnelly apologized to the New Jersey assembly yesterday for assaulting Assemblyman Vreeland by seizing the contents of a bottle of seizer in his face on Tuesday night in a local hotel. The attack followed an altercation over legislation.

House members, considering their duty as legislators, are endeavoring to secure his indictment for assault. The incident is believed to be closed.

MADAME POINCARÉ SENDS GREETINGS TO AMERICANS

Washington, March 1.—The woman's committee of the council of national defense has received a letter from Madame Poincaré, wife of the president of France, thanking the women of America for a message sent by Dr. Anna Howard Shaw, chairman of the committee. Madame Poincaré pledged the co-operation of French women in war relief work.

TEXAS TO INVEST STATE FUNDS IN U. S. SECURITIES

Austin, Tex., March 1.—The Texas senate yesterday finally passed a bill providing for the investment of \$5,000,000 of state funds in short-time government certificates. The bill passed the house Wednesday and now goes to the governor.

WOMEN NOT WANTED FOR RADIO OPERATORS

Washington, March 1.—Women aspirants to radio operators' positions in the navy and naval reserve force were notified by the department yesterday that women are not desired for such positions because they call for long experience and for both land and sea duty.

Women telegraphers were advised that they can perform a patriotic service by accepting employment with one of the commercial telegraph companies, thereby releasing men for military duty.

ERECT MONUMENT TO TUSCANIA VICTIMS

Port Ellen, Scotland, Feb. 28.—(By the Associated Press.) It is proposed to erect a monument in the center of the island of Islay, one of the Inner Hebrides, to commemorate the soldiers of the Tuscany. Probably the monument will take the form of a huge

HERR SCHEIDEMANN TAKES KAISER TO TASK

Tone of Speech of Emperor Declared Displeasing—Contents Unpolitical.

Amsterdam, March 1.—In Tuesday's debate on Chancellor Von Hertling's speech in the German reichstag, Philipp Scheidemann, socialist, took the emperor to task for his reply to the address of the burgomaster of Hamburg, in which the emperor said:

"We desire to live in friendship with neighboring peoples, but victory for the German arms must first be recognized."

"We have heard recently," said Herr Scheidemann, "of the speech in which it was said the world must first recognize us as victorious. Not for a long time have we read anything the tone of which was so displeasing and the contents so unpolitical. Perhaps it is to the point to recall that all parties, including the conservatives, in November, 1908, recommended somewhat more reserve in that quarter. In times when there is talk of peace, words from an authoritative source should be very carefully weighed. A great part of the people whom we represent do not share the views uttered in that speech, but on the other hand energetically repudiate them."

Herr Scheidemann declared that attempts to conclude a peace on the west such as that with Russia would prove a trial of strength dangerous for Germany. The world would go to sleep with rifles in hand, bolshevik dreams would be realized and world revolution arrive.

MACON'S NEW LIBERTY THEATER IS MODEL ONE

Macon, Ga., March 1.—The new liberty theater at Camp Wheeler, the first to be built in national guard camps, was formally opened last night. Harry P. Harrison, of Chicago, who provides the talent, and persons connected with the war department and commission on training activities, were in attendance. The acoustics were declared to be perfect. Other theaters are to be patterned after this, it is stated.

ANOTHER \$100,000,000 NEEDED BY RED CROSS

Washington, March 1.—In formally announcing last night that a campaign to raise another \$100,000,000 would be held during the coming spring, the American Red Cross war council said that to date practically \$87,000,000 of the first \$100,000,000 fund had been appropriated. The additional funds sought, the statement said, are necessary to keep up the war work, which includes services to the co-belligerent nations, as well as to the American fighting men.

"THE WISE USE OF MONEY IS ALL THE ADVANTAGE THERE IS IN HAVING MONEY"

And what is the "wise use" of money? It means spending only what is necessary for our moral, mental and physical well-being, and putting every possible penny to work drawing interest. One of our savings accounts, where you draw 4 per cent interest, compounded semi-annually, is the safest, surest way to put money to work.

Deposits made in our Savings Department on or before March 3d draw interest at 4 per cent. from March 1st.
